## **MAYOR'S REPORT**

Councillors I present to you the third quarter report for the 2015/16 financial year on the implementation of the budget and the financial state of affairs of the municipality. The aforesaid budget is being implemented in line with the service delivery and budget implementation plan.

Revenue collection is still the desired levels owing to our impoverished communities. To this end debtors stood at R30 086 318 as at the end of March 2016 which is considerably high considering the size of the municipality. More effective and rigorous collection methods have to be employed to improve collection levels.

The municipality's revenue sources are limited and the municipality is mainly dependent on government grants capital expenditure more so. Municipal Infrastructure Grant is the main source of funding. Economic stimulation is of paramount importance in Emadlangeni in order to broaden the revenue base.

Property rates revenue contribute significantly to the limited revenue base, nevertheless, the municipality relies solely on ward 2 as far as property rates revenue is concerned. In light of the above the long term strategies should include making use of the vast land on the municipality's disposal in embarking on middle income housing projects on the periphery of the municipality's boundaries with Newcastle. By so doing the municipality's revenue base is increased in the form of property rates and increased economic activity.

The reports for the third quarter in overall depict a improved spending pattern. Accelerated spending is expected in the last quarter of the financial year.

## **RESOLUTIONS**

## **EXECUTIVE SUMMARY**

### **REVENUE**

The budgeted total revenue for the 3<sup>rd</sup> quarter was R22 762 794 compared to actual accrued and billed for the same period of R13 948 118. The negative variance between actual and budgeted revenue for the quarter is 38% chiefly attributed to the INEP grants and Small town rehabilitation grant transferred towards the end of the quarter and is unspent. Challenges were experienced with the electrification project for a greater part of the quarter.

### **OPERATIONAL EXPENDITURE**

The overall operational budget for the 3<sup>rd</sup> quarter was R17 831 467 in contrast to actual expenditure of R14 100 507.41 representing a variance of 21%. This is partly explained by vacant positions which have not been filled yet. Debt impairment and provisions explain the variance as well. The accounting entries are passed semi-annually.

### **CAPITAL EXPENDITURE**

The total capital expenditure budget for the 1<sup>st</sup> quarter amounts to R5 148 340 compared to the actual expenditure of R2 018 339 which translates to only 39% expenditure of the budget for the 3<sup>rd</sup> quarter. This is mainly explained by slow expenditure on the rural electrification project due challenges faced. However, issues identified are being addressed significant improvement is expected in the 4<sup>th</sup> quarter. Appointments for other major capital expenditure projects are expected to be finalised in the final quarter. Therefore, a higher percentage spend of the budget is expected in the final quarter.
