Draft Top Layer Service Delivery Budget Implementation Plan for 2024/25

EMADLANGENI LOCAL MUNICIPALITY
FINAL 2024/25
SERVICE DELIVERY & BUDGET IMPLEMENTATION
PLAN (SDBIP)

JUNE 2024

INTRODUCTION

Service Delivery and Budget Implementation Plan (SDBIP) is a management, implementation and monitoring tool that will assist the Mayor, Councillors, Municipal Manager (Section 56), and community to monitor the progress made on service delivery in the municipality.

The SDBIP complements and should be read together with the 2023/24 to 2024/25 multi-year budget and the 2024/25 Integrated Development Plan (IDP). It also takes into account the Local Economic Development (LED) Strategy. The SDBIP therefore gives effect to the IDP and Budget of the municipality. The Budget in turn gives effect to the strategic priorities of the municipality and is not a management or implementation plan. The SDBIP therefore serves as a contract between the administration, council and community expressing the goals and objectives set over a financial year.

The SDBIP brings together a number of strategic plans and documents to give high level analysis of key deliverables against which there is assigned accountability and responsibility. The SDBIP provides a basis for performance appraisal for the municipality as a whole, for departments and senior managers. It also provides staff with a clear sense of purpose of the municipality goals.

The Service Delivery and Budget Implementation Plan has to be prepared as required by the Municipal Finance Management Act (MFMA) and the National Treasury circular which have been issued identifying the key components. The key components for the basis of the outline of this document are presented as follows:

- Monthly projections of revenue to be collected for each source;
- Monthly projections of expenditure (Operating and Capital) and revenue for each vote;
- Quarterly projections of service delivery targets and performance indicators for each vote;
- Detailed capital works plan broken down by ward over three years.

The departmental capital programmes and projects have been broken down per quarter in terms of the activities to be undertaken as from the **01 July 2024 to the 30 June 2025**, and also the expenditure patterns thereof for each programme and project. Through this format, it becomes easier for the municipality to monitor performance of the departments in relation to the quarterly, mid-year and annual targets to be achieved. This format provides a basis for performance appraisal for the municipality as a whole for departments, senior managers and staff with a clear sense of purpose of the corporate goals.

1. INTRODUCTION

The Service Delivery and Budget Implementation Plan (SDBIP) is a detailed annual performance (operational) plan for implementing services using the approved Draft budget for 2024/25. This annual service delivery plan is called the SDBIP and is based on the approved IDP and Budget.

SDBIP serves as a contract between the municipality and the community on the services that the municipality commits to deliver over the twelve (12) months. It also helps to hold the municipality and its management accountable for the performance on the mentioned programmes and projects.

The Municipal Finance Management Act and the guiding MFMA circular requires the following to be included in the SDBIP of a municipality:

- Monthly projection of revenue to be collected for each source
- Monthly projections of expenditure (operating and capital) and revenue for each vote
- Quarterly projections of service delivery targets and performance indicators for each vote
- Ward information for the delivery of a specific service

2. BACKGROUND

MFMA prescribes that each municipality must compile its SDBIP. The Mayor of the municipality is required to approve the SDBIP within 28 days after the approval of the budget and table the same at a Municipal Council meeting and made public no later than 14 days after approval for information.
